

Nestmann Pharma Drainage Remedies

Bio Boost™

- Fever with headache
- Feeling of weakness/exhaustion
- Inflammation and exudation of serious membranes
- Soreness in the muscles, bones or joints
- Lymphatic inflammation, with emaciation and great debility
- Febrile condition accompanied with pain in limbs and muscles

Bio Boost™ is a powerful homeopathic remedy that acts to increase the body's natural defences against viral or bacterial infections. Bio Boost® works on the non-specific immune system, stimulating granulopoiesis and increasing phagocytic function of leukocytes. Treatment with Bio Boost™ markedly increases the bactericidal activity of blood cells and has a beneficial effect on the complement properdin system.

Bio Boost™ can be particularly useful for the treatment of influenza and recurrent infections of the respiratory tract and urinary tract collection system.

A further effect of Bio Boost™ is to improve lymphatic drainage. It is also used for the treatment of allergic and rheumatic illnesses.

To receive the best results from the product, it is important to start taking Bio Boost™ as soon as the symptoms of the acute infection start to show in the form of fatigue, headaches, shivering, fever, etc. Bio Boost™ can be used in conjunction with antibiotic therapy without any interaction.

Contraindications:

Hypersensitivity to any ingredient or botanical composite. In cases of tuberculosis, leucosis, collagenosis, Multiple Sclerosis, AIDS, HIV infection & other autoimmune disease.

Dosage:

Bio Boost™ is particularly well absorbed by mouth mucosa. Take 40 drops initially, then 20 drops every hour in some water, until the patient feels improvement.
