Neuraplex™

Recommended Use:
- Depression
- Anxiety
- Stress
- Sleep disorders
- Nervousness
- Restlessness

Neuraplex is a traditional European sourced herbal extract preparation for neurological conditions including depression, stress-associated anxiety, restlessness, nervousness, or sleep disorders.

Neuraplex contains an herbal combination with proven beneficial effects on the nervous system. St. John’s wort is well known as a natural antidepressant and for anti-depressive and mood-enhancing properties. Valerian has sedative and soporific effect to regulate the autonomous nervous system. Passion flower is mildly sedative, psychoactive and sleep inducing. Corydalis is soothing and tranquilizing and California poppy is balancing, and acts as a sedative, analgesic and spasmylytic.

Most people are not aware of the impact stress has on their health. Lessening the effect of the CNS stress reactions on the body is the therapeutic value of Neuraplex. This formula provides a regulating effect on the mind (psychoactive) and the autonomic nervous system. Neuraplex can lead to an improvement in physical and mental well being without any risk of addiction.

This formula is recommended for symptoms of mild to moderate depression.

Ingredients: St. John’s Wort
