Concussion Bundle

Brain related injury

Concussion
Relieve symptoms past-stroke & TIA

Biomed’s other fine products only available from your health care professionals.

102 - 3738 North Fraser Way, Burnaby, B.C. V5J 5G7 | 1-800-665-8308 | biomedicine.com
Brain-related injuries can take a long time to heal. A Biological Medicine approach works to improve regulation and speed up healing of the brain by supplying fat soluble antioxidant nutrients (tocotrienols) to support healing the white matter of the brain, breaking down scarring (fibrin network), and increasing blood circulation to the brain.

Heal white matter of the brain and nervous tissue (reduce damage from excessive glutamate effects that cause oxidative damage and free radicals)

- **BioTrienol** – 2 capsule once daily before bed.

Break down fibrin (in the brain due to brain injury)

- **Nattokinase** – 1 capsule once daily before bed (on an empty stomach).

Increase blood flow to the brain (and improves delivery of other products via circulation to the brain)

- **SalvTonic** – 1 capsule once daily before bed. Can take up to 3 caps daily.

All three products work synergistically, take together before bed.

**Concussion Bundle**

**BioTrienol**
- Medicinal ingredients: Each gelcap contains:
  - Tocotrienols (Elaeis guineensis-fruit Tocotrienol concentrate) ........ 50 mg
  - Vitamin E (d-alpha Tocopherol) ........................................ 13 mg AT
