PSYCHOSOMATIC ENERGETICS
PATIENT GUIDE

INNOVATION FROM SWITZERLAND 🇨🇭
Rubimed is a revolutionary natural healing method from Europe. It provides a modern complementary medicine approach that addresses emotional issues and how these issues affect a person’s physical and mental health.

Rubimed Therapy is based on the concept that subtle light energy flows in the body and the more it flows, the healthier and more capable a person is. This energy is the source of optimal mental, emotional and physical health. When this free flowing energy is reduced or blocked due to subconscious unresolved emotional issues, it is the source of illness causing physical, mental and/or emotional symptoms.

With Rubimed Therapy, unresolved emotional conflicts are tested and then resolved using unique natural remedies which restore health and wellbeing on all levels.
How does Rubimed Therapy work?

During the course of our lives, one can suffer emotional stresses, resulting in negative emotional conflicts such as anger, fear, hopelessness, fatigue, burnout, depression, stress, anxiety, etc. Unresolved, these emotional conflicts become repressed into the subconscious (energy blocks) and negatively influence behavior.

These energy blocks will cause a person to feel tired, irritable, anxious, or no longer at their peak performance. Over the long run, one may become ill. Usual mainstream medical examinations often do not come up with a specific cause. The patient, however, continues to feel that something is just not right.

Decades of research lead German physician, Dr. Reimar Banis, to develop technology that can seek out emotional blocks that are believed to cause disease.

Beginning with an energy test using the Reba® device, an individual’s energy levels are measured, corresponding to their physical, emotional, mental and causal states of health. The Reba® device is also able to determine the active emotional issue and the hidden background causes of their symptoms.

Individualized and appropriate natural remedies are selected based on your test results.

In this process-based therapy, the remedies will serve to dissolve the emotional blocks, restore the energy flow, revitalize life energy and begin the self healing journey.

What Practitioners use Rubimed Therapy?

For over two decades, Rubimed Therapy has been used worldwide, with thousands of practitioners utilizing this healing method in Europe.

Introduced to North America over 10 years ago, Rubimed has become an essential and successful tool for helping people feel healthy again.
How can you benefit from Rubimed Therapy?

Everyone can benefit from Rubimed Therapy. We have all faced many different emotional experiences in life. In many instances, we work through them and move on. In other instances, the emotional experience or trauma is too big for us to fully process and becomes stored in the subconscious.

- Do you feel tired, irritable, stressed or no longer at your peak performance?
- Do you feel like something is not right, but you cannot put your finger on what it is?
- Are you not fully yourself after a stressful or emotional experience in life?
- Are you are stuck in a negative pattern or re-occurring symptoms that you can’t seem to get over?
- Have the usual mainstream medical examinations shown no specific cause or reason for symptoms you experience?

If you answered yes to any of the above, this may indicate a blocked flow of energy, which can lead down the road to illness. Rubimed Therapy gets to the core issues, improves energy levels and restores health for the long run.

Research shows that Rubimed remedies have been clinically proven to resolve the negative health effects of trauma, anxiety, stress and their related physical and mental conditions. A two year study in Europe showed an 86.5% success rate for resolving anxiety, depression, behavioural disorders, pain, adrenal burnout, sleep disorders, autonomic dysfunctions, respiratory conditions, gastrointestinal conditions, allergies, hormonal disorders, skin conditions and stress.
Understanding the Expression
Psychosomatic

Rubimed Therapy is also referred to as Psychosomatic Energetics. Psychosomatic (psyche = mind, soma = body) influences have long been known to be a cause in chronic disease. Research indicates that stressors (including stress, emotional trauma, anxiety, etc.) can lead to endocrine dysfunction, a weakened immune system, inflammatory reactions and disease.

There is extensive science and research showing that the body and mind are connected and often emotional issues manifest as physical symptoms.

We all know someone that suffers from ulcers due to stress or experiences heart palpitations due to anxiety.

“I’m so angry, I feel like I’m going to explode!”
“My heart is broken.”
“I have a lump stuck in my throat.”
“I’m a bundle of nerves.”
“I can’t keep my head above water.”
“My stomach is in knots.”

Every day expressions illustrate our connection between the mind and body.
The Remedies of Rubimed Therapy

The Rubimed remedies include:
- Chavita®
- Simvita®
- Geovita®
- An-X-Vita® (Canada)/Anxiovita® (USA)
- Nurovita® (Canada)/Neurovita® (USA)
- Emvita®
- Paravita®

There are specific centres in the body that correspond to vital physical functions including major nerve centres, blood vessels and hormonal glands. The most important centres of regulation are situated in the pelvis, lower abdomen, upper abdomen, heart, throat, forehead and the brain. These segments are also related to specific chakras - the core of subtle energy.

When the segments or chakras become blocked, specially designed Chavita® remedies are used to restore energy flow and function. In addition, the emotional remedies called Emvita® help to resolve emotional issues. These Rubimed remedies can be used in addition to other therapies.

For more acute situations like anxiety, pain, exhaustion or restlessness, there are additional remedies available. An-X-Vita® (Canada)/Anxiovita® (USA) is designed to address all anxiety conditions. Simvita® is useful for the nervous system, restlessness and inability to relax. Paravita® helps with exhaustion, inability to recuperate and after long periods of stress. Finally, Nurovita® (Canada)/Neurovita® (USA) is used for pain, nervous tension, stress and difficulty relaxing.

Geovita® is a remedy used to help the body rebalance its energies and to overcome negative effects of exposure to geopathic stress or electro-smog.
Remedy dosage

**Chavita®** and **Emvita®**

**Adults** - 12 drops twice daily, either directly on the tongue or mixed in a glass of water, or added to a bottle of water and sipped throughout the day.

**Children** - *One to six years* use 1 drop per year of age twice daily. *Six to twelve years* use 6 drops twice daily.

**An-X-Vita®/Anxiovita®, Simvita®, Paravita®, and Nurovita®/Neurovita®**

5 drops three times daily. Paravita in only take twice daily, in the morning and noon (never after noon).

The effects can often be felt within the first week of therapy and continues to work for weeks to months. In children, it generally works faster.

On the average, we each have three to five emotional conflicts to work through, takes eight months to two years to complete the entire process.

While taking the remedies, people often experience vivid dreams, as the emotional conflict is being moved from the subconscious to the conscious mind to be resolved. In some cases, you may experience sweating or diarrhea or emotional expression as part of the *emotional cleansing* process.

Symptoms reduce as conflicts resolve.
